

Android device – downloading and installing Zoom

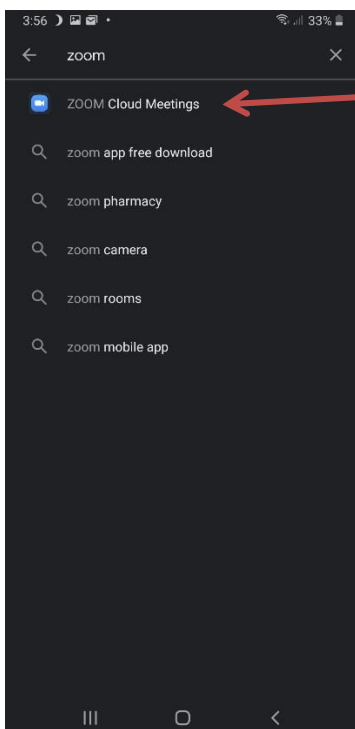

- 1) Use this app to go to the Google Play Store – tap on it.

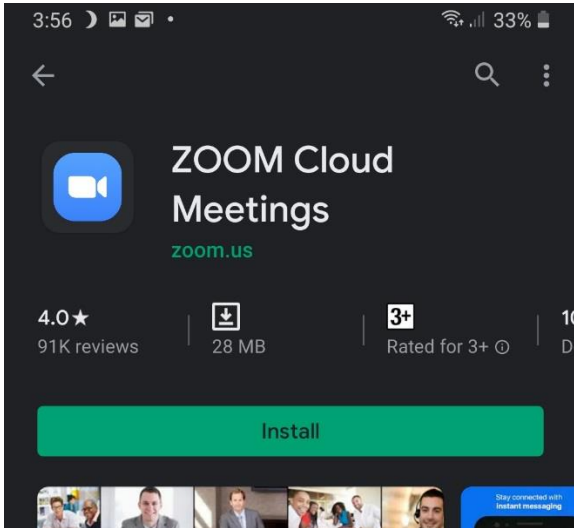

- 2) The Play Store screen will be displayed, and will look similar to this:

- 3) In the Search field at the top type in **Zoom Cloud Meetings**. It will appear in the list before you manage to type all of it in. As soon as it does appear, tap on it.

4) Once the Zoom app has been found in the Play Store it will be displayed. Tap on the **Install** button.

5) You'll see Zoom being downloaded...

6) Once installation has finished you'll see this screen. Do **NOT** tap on the "Open" button. Instead you can **EXIT** this screen as you are finished now.
